

BG721//Felt Shopper

Fabric Composition:
100% Polyester Felt

**Recommended area size for
decoration (WxH in CM):**

Showcased decoration method – Embroidery (Barudan BEV Series used in this example)

1. Hoop up the desired side of the tote and attach to the embroidery machine (buckles can detach if needed)
2. Have the desired logo digitised and loaded into your machine via USB/scanner (please note the digitiser should be made aware of the product in question with measurements, so the design works around the straps if needed)
3. Trace the design checking that the needle does not touch the hoop or straps
4. Start the embroidery
5. Remove the hoop and trim any excess thread if needed

**Personalisation and decoration can be applied in many areas. The above illustrates the easiest recommended area on this product.*

Other recommended decoration methods:

1. Transfer Print

- Temperature on heat press set at 160 degrees, high pressure, timer at 15 seconds
- Cover surface with a polyester fleece sheet on both presses
- Pre-press the surface for 5 seconds
- Tested on Adkins swing head heat press, with '123 Premium' vinyl from TheMagicTouch

2. Applique

- Iron on patches sold by third parties like Etsy can be easily applied slowly rotating the tip of an iron over the top until patches are fully adhered to the front panels
- Cover surface with a Teflon sheet
